Elettra eContacts

Elettra eContacts

A fast, installable phonebook for Elettra — also available offline

Access

https://vuo.elettra.eu/econtacts

Why eContacts?

- Works offline after first synchronization (⚠ requires Installation)
- Faster access than the standard web phonebook
- Installable as an app on mobile and desktop
- Designed for everyday use

> **Note:** We strongly recommend Installation, as it lets you access the phonebook even when the network is temporarily unavailable

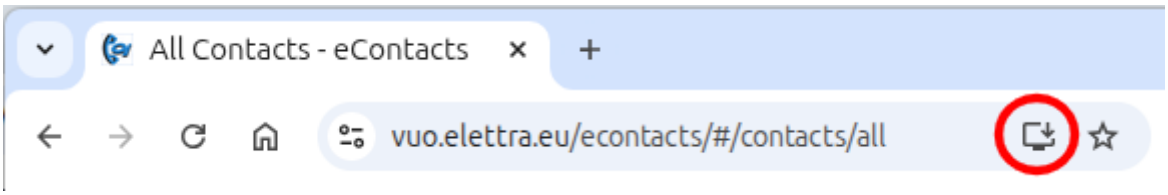

Main Features

• Approximate search • Favorites
• Status indicators
• Automatic synchronization
• Cross-platform (Android, iOS, Windows, macOS)

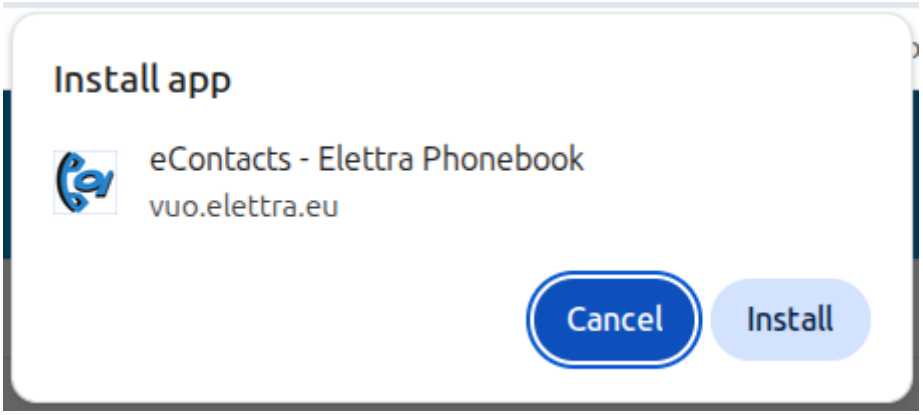

Installation (PC, Mobile)

Chrome (All PCs operative systems)

Open the link (https://vuo.elettra.eu/econtacts)

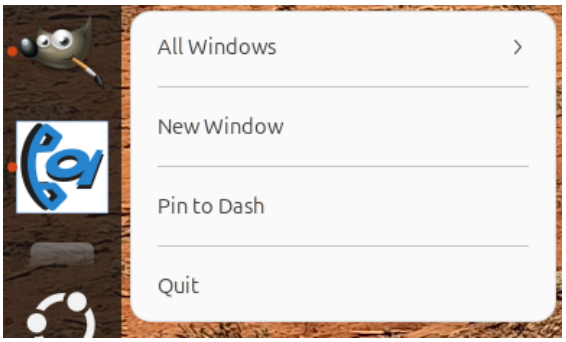

Clicking on the icon, the alert will compare, click Install.

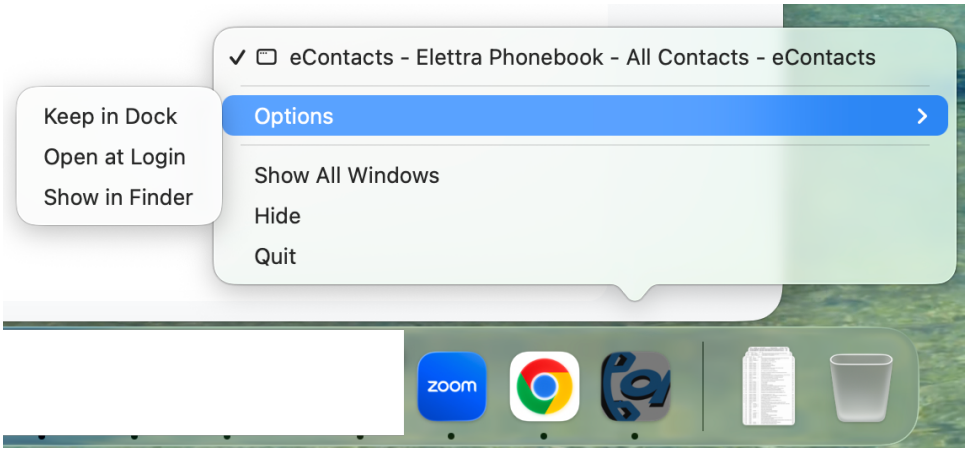

After these the App is installed!
On **windows** you can find the icon directly on the desktop, if you want to taskbar:
Open eContacts app, right click on the taskbar econtacts icon, then click "Pin to taskbar"

On **linux** you can find it in the application grid, if you want on the Dash:
Open eContacts app, right click on the Dash econtacts icon, then Options and select "Pin to Dash"

On **macOs,** if you want it on the taskbar:
Open eContacts app, right click on the taskbar econtacts icon, then Options and select "Keep in dock"

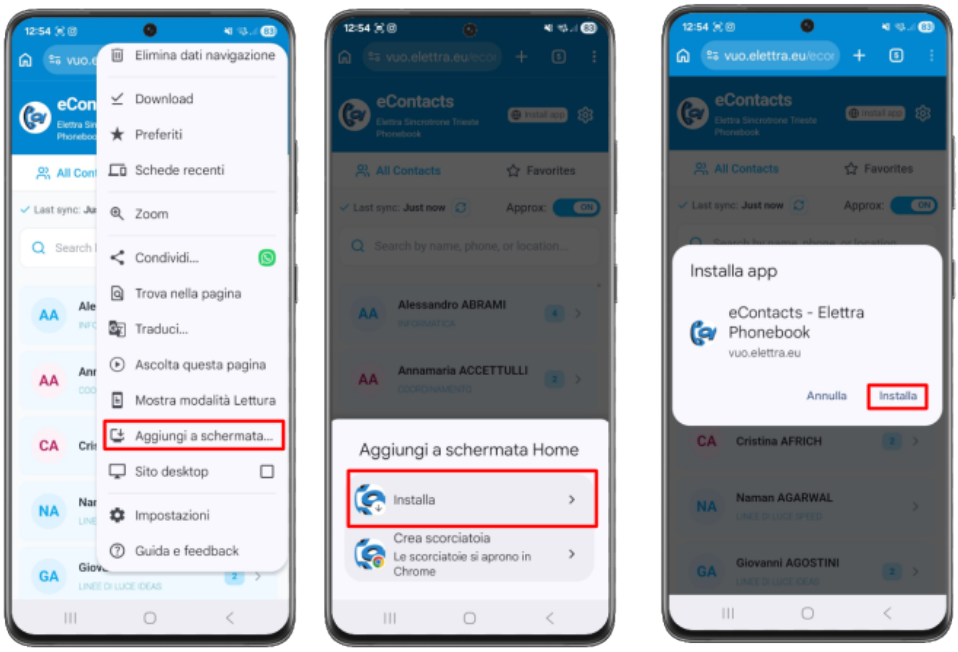

Chrome (Phonebook - Android)

Click on the 3 vertical dots

The Aggiungi alla schermata -> Installa-> Installa

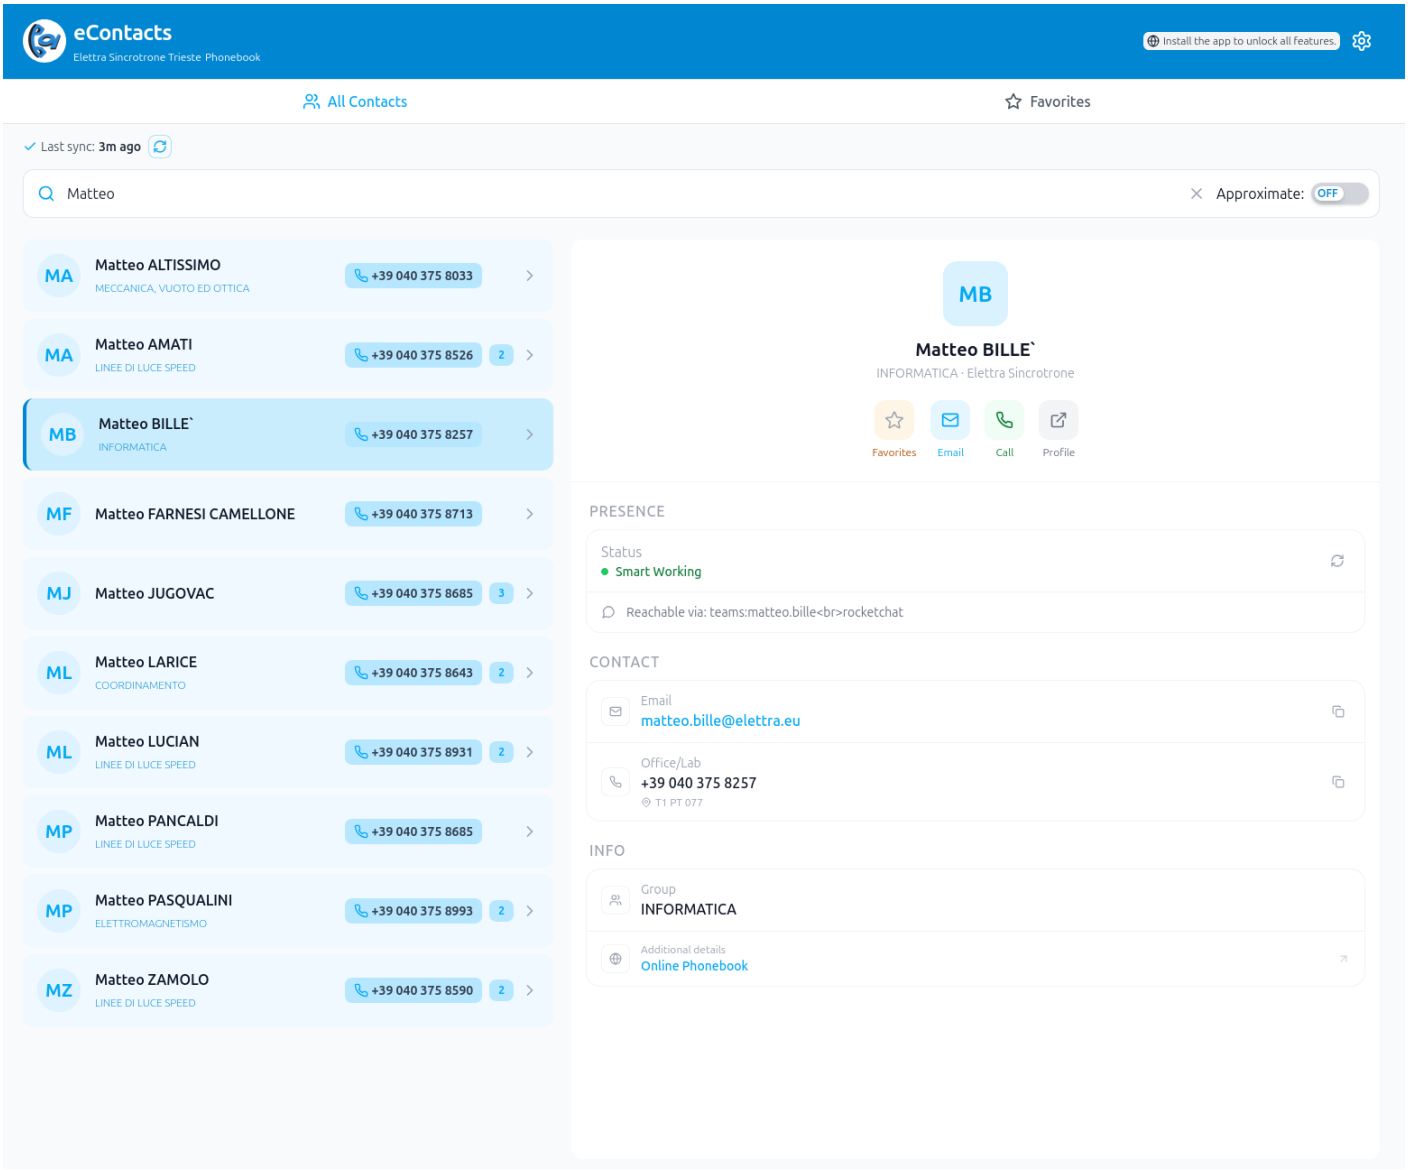

Then you can find the app like any other app on yout smartphone!

Chrome (Safari - ios)

Open the link, then click on share, select add to homepage and save it!
Now you can use the app like normal ones!
